

I am a designer and maker specialising in temporary small to medium scale light installations in public spaces and for public events.

The following installations are suitable for a range of environments, festival reimits, and for people of all ages from young to old. They animate environments both in daylight and at nighttime and are excellent backdrops for photo opportunities. They are particularly suitable for engaging audiences whilst keeping socially distanced.

Each installation can be installed as a complete work or in a variety of units for both outdoor and indoor environments and have been tried, tested and enjoyed at events such as Christmas at Kew 2015 and 2015, Enchanted Parks 2016, Doncaster Night Light 2019, Christmas at Blenheim 2020 amongst others.

They have been designed and fabricated to withstand outdoor and inclement weather usage and adhere to a wide range of health & safety requirements. They are environmentally friendly, designed for longevity, and can be reused for many years with minimal maintenance. The installations are flat packed and easy to transport, as well as easily taken apart for recycling at the end of their functionality and lifespan.

Please refer to the quotations below with a breakdown on the costs related to each installation. I would be very happy to find out more about your requirements and provide a tailored price. In addition, I am available to design and construct bespoke work for events.

The **Giant Rose Garden** consists of 20 x 200 cm freestanding illuminated roses, designed for day and night display. The installation allows the audience to walk through and provides the perfect 'romantic' photo backdrop. Each rose is independently lit with a battery operated light and can be displayed as a bunch to create a focus point or lined up to mark a path. Suitable for short events can be rigged and de rigged one the same day. For longer events power light may be required.

Giant Rose Gardens: 20 roses. Short to medium events		Provided by the event
Duration	1 day to 1 week	
Dimensions and material	200cm x 50cm, pvc and aluminium	
Install	Freestanding, rigged with rod pins in a grassy area	
Lighting	Internal, battery operated	External wash light (optional)
Get in	2h x 2 crew	Dry space for set up
Get out	2h x 2 crew	
Estimated cost	£700-£2300	

Teapots is a fun, colourful installation in an Alice-in-Wonderland style which stand out in any landscape and provides another great photo-op both day and night. It consists of 2 x 5m high teapots, in stretched lycra, with internal or external illumination. Can be installed anywhere, with putlogs or weighted bases, and suitable for shorter events.

Teapots x 2.	Short to medium events	Provided by the event
Duration	1 day to 1 week	
Dimensions and material	500cm x 120cm, stretched lycra	
Install	Freestanding, with putlogs or weighted bases	
Lighting	Internal or external, battery or power	
Set-up and rig	0.5 day x 2	
De-rig	0.5 day x 2	
Estimated cost	£600-£2000	

Horniman Museum 2018

Aurora is a series of illuminated cones which create an ethereal, dream-like atmosphere, both day and night. This installation is more suitable for longer events (one to 8 weeks). Price below do not include rig crew and lighting hire, which can be quoted separately.

Aurora: 15 cones	Medium to long events	Provided by event

Lighting	External or internal RGB LED PAR x 10, power	Lights x 10
Get in	1 day x 2 crew	1 day x 2 crew
Get out	0.5 day x 2 crew	0.5 x 2 crew
Estimated cost	£1500-£4000	

Christmas at Belton House 2020

Christmas at Kew Gardens 2015

Heart Walk is a vibrant installation made with red, gold and pink shimmery discs which move in the wind and reflect the light, highly visible both day and night. The 10 hearts are approx 122 cm wide and placed on poles at different heights. They could also be fixed to existing suitable structures. Illumination at night requires one light source x heart to be placed directly in front. This installation is suitable for medium to long events

Heart Walk: 10 hearts.	Short to long events		Provided by event
Duration	4 days to 8 weeks +		
Dimensions and material	100cm-135cm, various heights, PVC and Dibond		
Install	Freestanding, with putlogs		
Lighting	10 x Source 4 36°		Lights x 10
Get in	1 day x 2 crew		0.5 x 2 crew
Get out	0.5 day x 2 crew		0.5 x 2 crew
Estimated cost	£1500-£4500		

Snowflake Park is a sparkly installation which consists of up to 20 shimmering discs snowflakes of various shapes and sizes, in a range of gold, silver, blues and pinks, with a magical Christmas feeling and specifically designed for winter trails. The snowflakes are approx 130cm wide and are placed on poles at different heights. Illumination at night requires one light source x heart to be placed directly in front. The entire installation is suitable for long events but it is possible to hire any number of snowflakes for shorter or smaller events.

Snowflake Park: 20 snowflakes		Medium to long events	Required
Duration	1 week to 8 weeks +		
Dimensions and material	100cm-135cm, various heights, PVC and Dibond		
Install	Freestanding, with putlogs		
Lighting	20 x Source 4 36°		Lights x 10
Get in	1 day x 2 crew		1 x 2 crew
Get out	1 day x 2 crew		0.5 x 2 crew
Estimated cost	£2500-£7500		

Christmas at Blenheim 2020

- All installation are suitable for both **day and night, outdoor and indoor display**, and have been extensively tested in all weather conditions for up to 8 weeks.
- Available for **public and private events**. For smaller events, any number of items can be hired separately.
- Set up and take down include myself and another crew. Larger installations (Heart Walk, Aurora and Snowflake Park) may require additional crew to be provided by the event
- Unless otherwise specified the quotes below do not include lighting. It is recommended that light equipment and technician is provided by the event whenever possible, otherwise quotes are available separately.
- All quotes below exclude accommodation.
- Site visit fee is £50-£150, depending on location.
- RA, MS and Insurance are available on request.
